

What is the 2023 energy storage international conference?

The 2023 Energy Storage International Conference, jointly organized by the Institute of Engineering Thermophysics, Chinese Academy of Sciences, China Energy Research Society and China Energy Storage Alliance, was successfully held in Beijing Shougang Exhibition & Convention Center on April 7-9, 2023.

What's new at the energy storage event 2023?

After a record-breaking event last year, join us for the 8th edition in 2023 where we are expanding in line with the growing opportunities for energy storage across the renewable sector.

Why should you attend the Energy Storage Summit 2023?

We will also highlight the developing long-duration-energy-storage market and identify which technologies are ready to address the demanding needs of an evolving electrical grid. The Energy Storage Summit 2023, hosted in London by our publisher Solar Media, was attended by a veritable who's-who of the sector.

What is the Energy Storage Summit?

The 8th Energy Storage Summit, Europe's largest event on energy storage innovation, investment and policy, is here to help. This year we are moving to a larger venue where we will bring together Europe's leading investors, policymakers, developers, utilities, energy buyers and service providers all in one place.

What is Energy Storage Summit USA 2025?

Energy Storage Summit USA 2025 is the perfect platform to connect key industry players across the entire value chain of this buzzing US market.

Can energy storage help reduce energy costs?

Energy storage's role in enabling decarbonisation while increasing efficiency of grids and helping to manage energy costs was at the heart of discussions at Energy Storage Summit Asia 2023. The event, held earlier this month in Singapore by Energy-Storage news publisher Solar Media, covered a broad range of topics.
