

What is Enerkey BMS?

At this exhibition, Enerkey BMS brought a number of industry-leading lithium battery intelligent active balancing protection boards and other series of products to show the audience Enerkey BMS's strong R&D, manufacturing and service capabilities as a professional battery management system solution provider.

What protection boards are available on site?

At the same time, the 2-16S 20-300A home energy storage protection board, truck startup protection board and hardware protection board were also displayed on site, which can meet the customer needs of different battery usage scenarios.

What is Daly BMS?

Currently unavailable. We don't know when or if this item will be back in stock. [DALY BMS] Overcurrent, Overcharge, Overdischarge, Short circuit, Temperature protection. DALY BMS maximizes and optimizes the lithium battery performance, and extends the battery lifetime to a large extent.

What is balancing board & Protection Board?

The balancing board is mainly used to maintain the voltage balance between battery cells and prevent overcharge or over-discharge problems caused by voltage imbalance between battery cells. The protection board is to protect the safety of the battery and prevent short circuit, overcharge, over-discharge and other problems.

Why should you buy a JK home storage BMS?

**Parallel Protection Technology:** This Home Storage BMS features integrated 10A current limiting to safely expand battery capacity. Supports parallel connection of multiple battery packs, ensuring reliable and secure operation. **After-Sales Support:** Download the "JK BMS" app for 24/7 assistance.

What if I need a smart BMS?

If you need smart BMS, active balancer, parallel module or other accessories, please contact online customer service. We offer 24-hour one-on-one customer service and lifetime technical support. Would you like to tell us about a lower price?
