

Can land reserve bonds be repaid in advance

When should local government bonds be issued?

Effective investment needs to be expanded. All special local government bonds in this year's quota must be issued by the end of September and disbursed to projects by the end of October. Local governments will be urged to ensure that these projects generate activities in the real economy as quickly as possible.

How will China's new special bonds help reduce government debt?

Starting from 2024, the central government will arrange 800 billion yuan from the newly added local government special bonds every year for five consecutive years to supplement government fund financial resources, specifically for debt reduction.

How much Yuan has a provincial government issued refinancing bonds?

[Photo/Sipa] As of Dec 5, 23 provincial-level regions had issued refinancing bonds, with a total issuance of 145.95 billion yuan (\$20.05 billion), accounting for 73 percent of the 2024 issuance quota. That's part of the series of policies the central authorities have recently rolled out to help local governments prevent impending debt crises.

Q209: Can special bonds be repaid in advance? Local government special bonds are an important starting point for the implementation of a proactive fiscal policy, and are one of the most direct and effective policy tools for the government to stimulate investment. return. login. Q.

bonds were used to refund debt to lock in rates or restructure debt prior to a bond's typical 10-year call date. As a result of the Tax Cuts and Jobs Act, issuers now must either wait for a bond's call date to refund it or issue an advance refunding bond as taxable debt; combined this can mean higher costs and less flexibility.

The meeting pointed out that funds raised from the special bonds shall not be used in areas related to land reserve and real estate, for debt swap, or for industrial projects that ...

Under changes made to the federal tax code effective January 1, 2018, bonds issued for the purpose of advance refunding outstanding tax-exempt bonds (i.e., more than 90 days in advance of the maturity or call date) may no longer be done on a tax-exempt basis. Outstanding tax-exempt bonds may still be advance refunded on a taxable basis. The ...
