

Can people live in the above-ground storage room

Is it possible to live in a storage unit?

No, it is not possible to live in a storage unit. Whether you rented your unit through Neighbor or through a traditional facility, there are regulations against living there. Neighbor's units are located on a host's property, either in their home or in their yard and are not intended for habitation.

Are there people living in storage units?

Yes, people still live in storage units at traditional facilities, despite it being illegal. The primary reason for this is cheaper rent. You can rent a large storage unit for under \$200 per month, while an apartment usually costs 4 or 5 times this.

Are storage units safe for living?

Storage units are not safe places to live. Facilities take several measures to prevent people from living in their units, including the use of gates that lock after a certain hour, 24/7 security, and security cameras that monitor the premises. Unfortunately, people have died while staying in their units.

Can you live in a storage unit during the summer?

While it might be tempting to live in a storage unit during the summer, it is not safe or allowed. The temperatures inside can be as much as 30 degrees higher than outside, which could be dangerous. Furthermore, nearly every storage unit renter's lease states that you cannot live in your unit, and you will be evicted immediately if caught.
