What is the battery and energy storage Conference?

December 9, 2024 to December 11, 2024 The Battery and Energy Storage Conference seeks to engage scientists, engineers, and policy makers working in the fields of energy storage and conversion technologies to identify, communicate, and explore current advancements in storage materials, devices, and systems.

What is the energy storage global conference 2022?

Following the success of last year's hybrid event, despite the complex context of the health crisis, the conference gathered more than 350 participants and over 100 speakers from 37 countries worldwide; this year, the Energy Storage Global Conference 2022 will attract over 500 top-level energy storage professionals and policymakers.

When is the International Conference on energy conversion and storage - 2025?

The International Conference on Energy Conversion and Storage - 2025 will be held at IIT Madras from 27-29th January 2025. The main focus of this conference is on Electrochemical Technologies for Sustainable Development.

What is the energy consortium?

Energy Consortium The Energy Consortium is focused on advancing India's transition to a low-carbon energy future through global collaborations in research and innovation. Established in December 2021, it partners with industry, academia, and government to develop scalable solutions in clean energy, carbon capture, and storage.

Can I apply for financial support to attend the 6th Battery and energy storage Conference?

Thanks to the generous support of the AIChE® Foundation, we are pleased to announce that student and post-doc attendees have the opportunity to apply for financial support to attend the 6th Battery and Energy Storage Conference! Awardees will receive complimentary registration.
