

What is CIMC TLC|RYC energy storage container?

CIMC TLC|RYC Energy Storage Container can integrate energy storage converters and energy management systems according to customer needs. It has the characteristics of simplified infrastructure construction cost, short construction period, high degree of modularization, and easy transportation and installation.

What can CIMC Enric do for You?

The 40-foot liquid hydrogen tank container provides an optimal solution for large-scale, long-distance multimodal hydrogen energy transportation. Looking forward, CIMC Enric will comprehensively strengthen its efforts in the new field of hydrogen energy.

Who is CIMC Enric?

CIMC Enric is a leading supplier of clean energy equipment in China and the pioneer in the complete layout of hydrogen energy industry chain. With over a decade of experience in hydrogen energy storage and transportation, CIMC Enric possesses leading technical expertise.

What is energy storage container?

Energy Storage Container is an energy storage battery system, which includes a monitoring system, battery management unit, particular fire protection system, special air conditioner, energy storage converter, and isolation transformer developed for the needs of the mobile energy storage market.

Mr. Xu Yongsheng, Vice President of CIMC Hydrogen, said: "The successful development of the liquid hydrogen tank container once again demonstrates CIMC Enric's top ...

Energy storage containers are versatile solutions that address diverse energy challenges across industries, playing a pivotal role in ensuring reliable power supply, sustainability, and efficiency ...
