

Where is a lithium-ion battery project located in Colombia?

Located in the city of Barranquilla in northern Colombia, this project will consist of a 45 MWh lithium-ion battery energy storage system and is expected to reach commercial operation by June 2023. The project is granted with a 15-year revenue structure with the Colombian government and is indexed to the country's inflation or producer price index.

Did Canadian Solar win the first Pure Storage tender in Colombia?

Dr. Shawn Qu, Chairman and CEO of Canadian Solar, commented, "We are very proud to have won this project in the first pure storage tender in Colombia. This is also our first energy storage project in the country and the Latin America region."

Who is solar power & battery storage company?

It is a leading manufacturer of solar photovoltaic modules, provider of solar energy and battery storage solutions, and developer of utility-scale solar power and battery storage projects with a geographically diversified pipeline in various stages of development.
