

Why do you need an outdoor battery enclosure box?

Outdoor battery enclosures keep your batteries safe from weather and safe from theft. Outdoor battery enclosure boxes also feature locking mechanisms that protect unauthorized people against possible electrical dangers if they happen to be tampering with your equipment.

What is a battery enclosure box?

Battery enclosure boxes also feature locking mechanisms that protect unauthorized people against possible electrical dangers if they happen to be tampering with your equipment. Our battery enclosures can be pole-mounted or ground-mounted and are suitable for indoor and outdoor applications.

What is a solar battery box?

This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are usually made from painted steel. Battery enclosures keep your batteries safe from weather and safe from theft.

What is outdoor battery enclosure?

The outdoor battery enclosure is a housing, cabinet, or box that can be used outdoor and specifically designed to store or isolate the battery and all its accessories from the external environment. Outdoor battery enclosures keep your batteries safe from weather and safe from theft.

Why do battery enclosures have hinged doors?

Hinged doors control how and how much the door or cover of a battery enclosure opens. Locks add a layer of security to your battery enclosure. Locks make sure no one tampers with it or accidentally accesses its batteries and chargers. This improves safety and helps control access to electrical batteries.

What are explosion-proof battery enclosures?

Lastly, explosion-proof battery enclosures may have special features to contain explosions of batteries. These features include high-strength steel, an anti-fire base, and strong clamps. Such enclosures are used for over-charging and forced-discharging of batteries.
