

How can chargebnk revolutionize electric vehicle charging infrastructure?

Join us in revolutionizing electric vehicle charging infrastructure by connecting EV owners to share power and reduce charging wait times, costs, and range anxiety. At ChargeBnk, we believe your EV can serve as a mobile power bank and backup energy storage, creating a sustainable solution for the future of transportation.

What is the future of mobile energy storage & charging?

The rapid growth of electric vehicle (EV) ownership worldwide has created a significant opportunity for the mobile energy storage and charging market. According to the China Association of Automobile Manufacturers (CAAM), the market penetration of EVs in China surpassed 25% in 2022.

What is Charge Powerbank?

Charge Powerbank is a network of swappable battery share kiosks that allow you to rent portable battery power. Download the app, plug in your information, scan the barcode on the kiosk, and you'll have access to unlimited battery power.

What are mobile energy storage vehicles?

As the EV market continues to grow, mobile energy storage vehicles will become an integral part of the future charging industry, further advancing the adoption of electric vehicles and smart mobility. Mobile energy storage vehicles are widely used in taxi stations, airports, highway service areas, supermarkets, parking lots and other places.

What is chargebnk EV?

At ChargeBnk, we believe your EV can serve as a mobile power bank and backup energy storage, creating a sustainable solution for the future of transportation. Connect EV owners for direct charge-sharing transactions and offset expenses by selling energy. Bidirectional EVs can power up any other EV during peak times or emergencies.

How to charge this portable charger?

Charge the portable charger by connecting its USB-A port to a USB charger or a computer's USB-A port using the included cable. The blinking LED indicator will turn solid when the battery reaches 100% capacity. To charge a device, connect the USB-A port of the charger to the device.
