Why is Inner Mongolia constructing a new energy storage power station?

[Photo/Xinhua]HOHHOT -- Inner Mongolia Energy Group has started constructing a large-scale new energy storage power station in the Ulan Buh Desert,the eighth-largest in China,to better harness new energy power for grid connection.

How many kilowatts does Inner Mongolia have?

Inner Mongolia autonomous region has become the first region in China to surpass 100 million kilowatts in new energy installations,achieved through the completion of the 1-million-kilowatt wind power storage project in Siziwang Banner and the second and third phases of the Three Gorges Ulaanqab green power demonstration project.

Is Inner Mongolia a good place to invest in energy?

North China's Inner Mongolia autonomous region,a treasure trove of energy,boasts a rich blend of resources including coal,natural gas,and abundant wind and solar power,making it fertile ground for the development of the energy industry. Leveraging its natural advantages,Inner Mongolia has set ambitious goals.

What is Inner Mongolia known for?

Inner Mongolia,a treasure trove of energy,boasts a rich blend of resources including coal,natural gas,and abundant wind and solar power,making it fertile ground for the development of the energy industry.

Can a new energy storage power station help fight desertification?

According to the energy bureau in North China's Inner Mongolia autonomous region,in addition to the economic benefit of producing green electricity,the new energy storage power station built in the Ulan Buh Desert hinterland with photovoltaic power generating facilities has ecological and social benefits for combatting desertification.

What are Inner Mongolia's goals?

Leveraging its natural advantages, Inner Mongolia has set ambitious goals. This entails taking the lead among all provinces and autonomous regions in establishing an energy supply system centered on new energy sources and pioneering the development of a novel electricity system primarily powered by renewable energy.

Guodian Power wind Power energy storage project is planned to be built in Aolengusu Gacha, Duguitara Town, Hangjin Qi, Ordos City, Inner Mongolia Autonomous Region. The wind power project has 30 wind turbines, ...
