

Who is Hillhouse investment?

Founded in 2005, Hillhouse Investment is an Asia-focused private equity firm of investment professionals and operating executives who are focused on building and investing in high quality business franchises that achieve sustainable growth.

Why did Hillhouse invest in GCL integration?

As part of the strategic investment, Hillhouse Investment, a global private equity firm with a focus in Asia, has acquired AU\$27 million worth of shares from GCL Integration, with an additional AU\$24 million capital injection into the Australian firm. The investment is designed to fortify OSW's rapid global expansion.

Will Hillhouse investment support OSW's new energy value chain?

Hillhouse Investment's support would further enhance OSW's revolutionary and newly unveiled energy value chain. The amalgamation of software capabilities, technologies and solutions - in particular in areas such as Virtual Power Plants (VPP) and Electric Vehicles (EVs) - captures the essence of the organisation's capacity.

What is NPL's 240 acre site for underground gas storage?

A fully secure and serviced strategic industrial and employment site near the M55 motorway. Located on a site which carries a unique salt geology, NPL promoted this 240 acre site for underground Gas Storage. Located in south west England the site enjoys a south facing aspect maximising the generation levels.

Who is Hillhouse & OSW?

Hillhouse manages assets on behalf of institutional clients from across the globe. OSW is Australia's largest Solar Distributor, stocking everything from PV Panels, Inverters, Solar Storage options to racking, components, and all electrical needs.

Asset manager Foresight Group has invested in a co-located 1.6GWh pumped hydro energy storage and wind project in Scotland. The project, at the disused 1,547-acre Glenmuckloch ...

Key areas of decarbonization such as traditional energy versus new energy, power grid transition and energy storage, and zero-carbon buildings were part of the discussions at the session.

Hillhouse, Green Power. NPL's 288 acre Hillhouse site at Thornton-Cleveleys, Lancashire provides a fully secure and serviced strategic industrial and employment site situated close to the port of Fleetwood and the M55 ...

Historically, human and animal power were primary energy sources, leading to the development of electrical power. Today, electricity is crucial for modern life, addressing both basic needs and advanced technologies. Energy varies in form based on harnessing, storage, distribution, and usage, with origins traceable to the sun.

Many financial institutions invested in energy storage companies. Examples include Hillhouse Capital's 10.6 billion RMB investment in CATL, and the launch of IPOs by numerous energy storage companies such as ...

Li Liang stressed that Hillhouse has always prioritized new energy, new materials, and the development and industrial application of leading technologies in these fields. "This year, we invested in a company dedicated to the large-scale, low-cost production of green hydrogen. With its core technology, it can efficiently utilize methane to ...

Shenzhen Qianhai Energy Technology Development Co. Ltd. is responsible for the investment and construction of the station. The cooling station has a production capacity of 38,400 refrigeration tons (RT), an ice storage capacity of 153,800 RTh (refrigeration ton-hour) and a peak cooling capacity of 60,500 RT.
