

How much is Honghua rig worth?

China's Honghua Group, a leading global land drilling rig manufacturer under the Dongfang Electric Corporation, signed a contract with a large drilling company in the Middle East to deliver several sets of 3000HP artificial island cluster wells drilling rigs, with a total value of 1.5 billion yuan (\$206.7 million) on July 16.

Who is Honghua Group Limited?

Honghua Group Limited is a large-scale equipment manufacturer and drilling service provider. It specializes in research, design, manufacture, and set-assembly of drilling rigs, offshore engineering, and oil & gas exploitation and production equipments.

When did Honghua Group go public?

Launched its IPO in March 2008, Honghua (HKEx 0196) became the first drilling rig manufacturer of China to go public. It is the biggest exporter of drilling rigs in China, and one of the largest land drilling rig manufacturers in the world.

What does Honghua export?

Honghua exports labor service exporting, among other businesses. Simultaneously making use of sales network and channels globally, Honghua markets a broad range of businesses, comprised of land drilling rigs, spare parts, offshore equipment, non-drilling products, non-oil products, outsourcing, labor service exporting, etc. Manufacture of Land Drilling Equipments

What are Honghua's EPC capabilities?

Honghua Offshore is among the mere few that are armed with EPC capabilities in the world. Honghua has a capacity of manufacturing 120 drilling rigs and 500 mud pumps per year.

What are the locations of Honghua Group's manufacturing bases?

Honghua Group has positioned its land and offshore equipment manufacturing bases in Guanghan, Sichuan and Qidong, Jiangsu respectively. Headquartered in Chengdu, Sichuan, the group also operates through more than ten subsidiaries and agencies with four ancillary and maintenance service centers.

we use large-capacity energy storage system to smooth the power and improve the power quality. The energy storage technology used in a distributed generation system should have following advantages: The energy storage units must have high degree of safety and stability. They should be guaranteed to work well without maintenance [9].

Dongfang Electric Corporation Limited's subsidiary, Honghua Group Limited, secured a new order for a

smart drilling rig from a Middle Eastern client, valued at 1.5 billion RMB. The smart drilling rig, standing 70 meters tall and weighing ...

Honghua Xu's 29 research works with 189 citations and 2,075 reads, including: Photovoltaic Power Plant Collection and Connection to HVDC Grid with High Voltage DC/DC Converter

Honghua Group, China a leading global land drilling rig manufacturer under the Dongfang Electric Corporation, announced that it has signed a contract with a large drilling company in the Middle East. ... energy ...

The rig adopts a design that integrates mechanical and electrical components, featuring advanced intelligence drilling technology, automated handling tools, offline ...

Recently, Dongfang Honghua, a subsidiary of Dongfang Electric Group, signed a new order contract with a Middle Eastern customer to provide several sets of new "artificial intelligence+island drilling technology" AI drilling ...

Flywheel energy storage systems: A critical review on technologies, applications, and future prospects ... At present, demands are higher for an eco-friendly, cost-effective, reliable, and durable ESSs. 21, 22 FESS can fulfill the demands under high energy and power density, higher efficiency, and rapid response. 23 Advancement in its materials, power electronics, and ...

The rig adopts a design that integrates mechanical and electrical components, featuring advanced intelligence drilling technology, automated handling tools, offline processing technology, zone ...

Throughout the exhibition, Dongfang Honghua (HH) and its joint venture, the Egyptian Petroleum HH Rig Manufacturing Company (EPHH), showcased cutting-edge technologies and products. These included desert fast-moving drilling rigs, energy storage solutions, and oilfield photovoltaic systems.

Bai Honghua is an academic researcher. The author has contributed to research in topics: Thermal conduction & Energy storage. The author has an hindex of 2, co-authored 7 publications. ... In this paper, a heat energy converter consisting of an energy storage box and energy converting liquid is stored in the energy storage, ...

Honghua has the global leading welding workshops, assembly workshops, forging workshops, and the largest rig-up yard throughout the world. Honghua has a capacity of manufacturing 120 drilling rigs and 500 mud ...

In 2021, Honghua will further develop fracturing equipment as its core business to satisfy clients' needs of reducing costs and enhancing efficiency via adhering to the national energy security strategy, grasping domestic industry opportunity of increasing energy

("")?,, ...

Energy Equipments Manufacture. With the annual manufacturing capacity of 120 drilling rigs and 500 mud pumps, HH has the world's largest rig assembly and test yard in China, where 24 rigs can be assembled/rigged up simultaneously. ... Honghua Group Ltd. All Rights Reserve. ICP 12009856-1 +86 28-6817-6436 ...

Honghua Group Ltd has developed several energy storage projects in China, including a 10 MW/20 MWh lithium-ion battery storage system in Sichuan. The company is also exploring ...

223 46 12 8 6 3 ...

Honghua Group Co., LTD. (referred to as Dongfang Honghua) is a secondary enterprise under the central enterprise China Dongfang Electric Group Co., LTD. Founded in 1997, Dongfang Honghua is a global leading international enterprise specializing in oil and gas exploration and development equipment research, manufacturing, complete sets and ...

Honghua Group, China a leading global land drilling rig manufacturer under the Dongfang Electric Corporation, announced that it has signed a contract with a large drilling company in the Middle East. As part of ...

Review of energy storage system for wind power integration ... An Energy Storage System (ESS) has the ability of flexible charging and discharging. Recent development and advances in the ...

Guangdong Honghua Group Co., Ltd., headquartered in Dongguan City, the global manufacturing hub, is a comprehensive group enterprise integrating full-process architectural services for housing ...

Latest Honghua Group Ltd (196:HKG) share price with interactive charts, historical prices, comparative analysis, forecasts, business profile and more. ... Asian Energy Services Ltd; Save Clear. Go to Interactive chart. Key statistics. As of ...

Qiang Zhao, Yuqiong Zhang, Xiaoxin Zhou, Ziwei Chen, Huaguang Yan, Honghua Yang Engineering >> 2024, Vol. 33 >> ... Liu Yafang: by the end of 2022, 8.7 GW of new energy storage projects had been put into operation]. Report.. Beijing: National Energy2023 ...

Recently, Honghua Group announced that on November 27, 2021, the company received a notice from the largest shareholder Kehua Technology Co. Ltd. (a wholly-owned ...

China's Honghua Group, a leading global land drilling rig manufacturer under the Dongfang Electric Corporation, signed a contract with a large drilling company in the Middle East to deliver several sets of 3000HP artificial island cluster wells drilling rigs, with a total value of 1.5 billion yuan (\$206.7 million) on July 16. ... energy storage ...

energy storage units over charged or over discharged. MPC can provide a control command to the energy storage system without a delay by using prediction. This improvement can save a large part of the energy storage capacity. In this paper, the values predicted in the MPC are the grid impedance and other parameters.

China leading provider of Lifepo4 Storage Battery and Lithium Storage Battery, Shenzhen GreFlow Energy Co., Limited is Lithium Storage Battery factory. eva@amazing-battery ... Address : 5th Floor, HongHua Center, ...

In 2021, Honghua will further develop fracturing equipment as its core business to satisfy clients' needs of reducing costs and enhancing efficiency via adhering to the national energy security strategy, grasping domestic industry opportunity of increasing energy reserve, and responding to market demand for high efficiency and sustainability.

Honghua energy storage Honghua Group, China a leading global land drilling rig manufacturer under the Dongfang Electric Corporation, announced that it has signed a contract with a large drilling company in the Middle East. ... energy storage and a power management system, as well as online monitoring technology. Furthermore, the

In the field of energy storage, CATL's cumulative winning/signing of energy storage orders in 2023 is about 100GWh. And in 2021 (16.7GWh, global market share of 24.5%), 2022 (53GWh, global market share of 43.4%), 2023 ...

On March 12, 2025, CM Energy Technology Co., Ltd. ("CM Energy") and Honghua Group Limited ("Honghua Group") formally signed a strategic cooperation agreement in Guanghan, Sichuan. The agreement was executed by Zhan Huafeng, Executive Director and CEO of CM Energy, and Zhu Hua, Deputy Party Secretary and President of Honghua Group, marking a milestone in their ...

With the flexible charging-discharging characteristics, Energy Storage System (ESS) is considered as an effective tool to enhance the flexibility and controllability not only of a specific wind farm, but also of the entire grid. This paper reviews the state of the art of the ESS technologies for wind power integration support from different ...
