

How to switch careers in the sales of industrial and commercial energy storage

How do I switch industries If I'm a business exec?

Start Networking (Strategically) Your network can be your most powerful asset in an industry switch. While many execs scoff at networking, there's nothing more powerful than a word-of-mouth recommendation--particularly if you are moving between industries. Leverage LinkedIn to connect with professionals in your target industry.

What makes the energy storage industry so interesting?

The energy storage industry is still fairly young compared to others like wind or solar. This means it's rapidly growing, changing and innovating (part of what makes working in the industry so interesting).

Can you change industries if you're in your 20s?

Whether you're in your 20s or changing industries mid career, industry transitions are becoming more common than ever. According to a LinkedIn survey, 61% of workers in their 20s have already changed industries at least once. The good news? You can change industries without starting from scratch.

What is a career switch?

Career switch refers to the act of moving to a different career than what you are presently pursuing. You can switch careers within or outside the current industry or company. However, it is different from moving to another job in the normal course of your career. Switching or changing a career implies a change in the type of work that you do.

Why do I need a career switch in Singapore?

In addition to the above, there may be several other reasons like health requirements, better learning opportunities and a more challenging work environment that may necessitate a change in career. If you are considering a career switch in Singapore, here are the steps to help you successfully transition to a new career field: 1.

What if I move from sales to teaching or human resource management?

However, if you move from sales to teaching or human resource management, it would amount to a career transition since there would be a change in the nature of your job. Making a career change may require you to learn new skills. You may also have to start afresh from the bottom in your new career.
