Why is energy storage important?

Energy storage helps integrate renewable energy resources. It also improves energy grid reliability by providing grid stability services, reducing transmission constraints, and meeting peak demand. Wood Mackenzie Power & Renewables projects U.S. energy storage capacity will grow from 2020 two and a half times by 2026.

What skills do you need to work in energy storage?

One of the most obvious and essential skills for working in the energy storage and renewable energy sector is technical skills. This includes having a solid understanding of the different types of energy storage technologies, such as batteries, flywheels, pumped hydro, compressed air, thermal storage, and hydrogen.

How can we make energy storage more reasonable?

One way to approach making energy storage more reasonable is to make sure it's renewable and ethically sourced. One company working on such a solution is Tesla. They are creating batteries that use less cobalt, a material that often comes from mines in the Democratic Republic of Congo that use child labor.

What makes field a great energy storage company?

The energy storage industry is no exception. At Field, they are the glue that holds us together - whether that's by bringing new talent into the business, negotiating contracts or ensuring we have a strong balance sheet. They're absolutely essential to the Field business, enabling us to do the work we do.

What makes the energy storage industry so interesting?

The energy storage industry is still fairly young compared to others like wind or solar. This means it's rapidly growing, changing and innovating (part of what makes working in the industry so interesting).

Why do energy storage companies need a strong finance team?

Regardless of which sector they're working in, businesses need strong finance, legal and people teams. The energy storage industry is no exception. At Field, they are the glue that holds us together - whether that's by bringing new talent into the business, negotiating contracts or ensuring we have a strong balance sheet.
