

How much does energy storage cost in Italy?

The results of Italy's main grid capacity market auction for 2025, published by Terna, show energy storage represented 51.1% of the 174 MW of new capacity assigned. Thermoelectric plants made up the balance, with the new capacity secured for EUR67,500 (\$72,900) per megawatt per year, for a total cost of EUR11.75 million.

What is Italy's main grid capacity market auction for 2025?

Italian electricity transmission system operator Terna has published the results of 2025's main capacity market auction. The results of Italy's main grid capacity market auction for 2025, published by Terna, show energy storage represented 51.1% of the 174 MW of new capacity assigned.

Who won the capacity market auction in 2027 in Italy?

Image: Enel. BESS technology has won the bulk of new resource contracts in the capacity market (CM) auction for delivery in 2027 in Italy. The auction took place last week (26/27 February) and awarded 38,057 MW of obligations to existing resources and 594 MW to new resources, alongside 4,365 MW to resources located outside of Italy.

Which energy projects won 174 MW of new contracts in Italy?

Meanwhile, Italian transmission system operator (TSO) Terna published the result of its capacity market recently, which saw 174 MW of new contracts awarded to energy projects. Three BESS projects won a little over half of that capacity, at 89 MW in total, while thermal generation units won 85 MW of new capacity.

How many GW of power will Italy deliver next year?

Italy's latest capacity market auction for power to be delivered next year assigned 42.2 GW of capacity, data published by transmission system operator Terna showed. These include nearly 37.6 GW of existing capacity, around 233 MW of new capacity, as well as 4.36 GW of capacity from abroad.

How much storage capacity will Italy need by 2030?

Namely, according to the updated scenario developed by gas company Scam and power grid operator Terna, Italy will need 72 GWh of storage capacity by 2030 to meet the EU's "Fit for 55" package goals. Around 50 GWh of this capacity will be allocated to new utility-scale systems supported by MACSE to complement the growing penetration of renewables.

The firm has been an early mover in Italy's grid-scale energy storage market with over 1 GW of BESS under construction after big capacity market wins in 2022. In concurrent news, developer Emeren has continued its ...

As of Sep. 30, 2024, Italy had a cumulative 692,386 energy storage systems, with a total rated power of 5,034 MW and an energy storage capacity of 11,388 MWh. Almost all of the systems - 92% - had a capacity of ...

The results of Italy's main grid capacity market auction for 2025, published by Terna, show energy storage represented 51.1% of the 174 MW of new capacity assigned. Thermoelectric plants made up the balance, with the ...

Timera Energy look at implementation of a new long term contract support mechanism for storage in Italy that is set to drive a surge in battery investment. ... our first in a series on Italian storage investment, we set out ...

Italy's TSO Terna is in the midst of reforming the electricity market to incorporate new energy storage resources onto the grid. Image: Terna. In a big week for the grid-scale energy storage market in Italy, regulators have ...

With the first auctions for procuring new storage capacity in Italy expected in the second quarter of 2025, Aurora Energy Research has analyzed the internal rate of return for projects supported ...

Italy: BESS wins nearly 600MW of contracts in 2027 capacity market. March 3, 2025. ... The energy storage market in Italy has unique characteristics that mean more risk-averse ...

Emeren Group has announced a co-development agreement with Arpinge. This partnership aims to develop a 300 MW Battery Energy Storage System (BESS) portfolio in ...

BESS technology has emerged as the dominant force in the recent capacity market auction held in Italy, securing a significant portion of new resource contracts for delivery in ...

Another issue in the Italian market is that BESS costs spiked shortly after battery storage won an unprecedented and unexpected amount of contracts in February 2022's ...

Figures by industry group Italia Solare put the current size of the Italian energy storage sector at approximately 450MW of total installed capacity. Italian transmission system ...

In the country's 16th renewable energy procurement exercise, the lowest bid came in at EUR0.07199/kWh and was offered for a 2.7 MW solar facility in the province of Ancona, ...

Industry insiders expects that battery storage projects have accounted for around 900 MW. Italy's transmission system operator (TSO) Terna has announced the results of its capacity market auction for the delivery year ...

Italy's National Energy and Climate Plan (NECP) includes specific targets for storage technologies Italy's storage targets Italy's target for the share of renewable electricity ...

2025 is set to see a rapid growth in investment in the Italian energy storage sector, led by battery energy storage systems (BESS), with the implementation of MACSE. The eagerly anticipated procurement exercise

will ...

The auction, which was for delivery of projects to begin operation in 2024, has been credited with kickstarting the Italian market for grid-scale energy storage s biggest winner was utility Enel, which won more than 90% ...

EP Produzione will build 170 MW of battery energy storage systems with a two-hour storage duration at two sites. One project will be located at the company's Fiume Santo coal ...

Gensol wins 250MW/500MWh Gujarat tender. NTPC is among the government-owned entities that have been holding tenders in India for battery storage, either standalone or in hybrid pairing with generation facilities, along ...

Nidec ASI, the Italy-based industrial solutions division of Japanese conglomerate Nidec Group, has won a contract to deploy 5.4GWh of battery energy storage systems in its ...

The energy minister of Italy has signed a decree paving the way for an energy storage capacity auction to kick off in the first half of 2025. Skip to content. ... Minister of the environment and energy security Gilberto Pichetto ...

Gestore dei Servizi Energetici (GSE), Italy's energy agency, allocated 243.3 MW of renewable energy capacity for projects over 1 MW in size in the 14th renewable energy ...

In Germany - but not only there - there is a heated debate about the pros and cons of a capacity market. The German Renewable Energy Association is against it, and recently ...

Matteo Corigliani, head of Aurora Energy Research Italy, said official data showed that as of the end of March, Italy had approved more than 2GW of energy storage projects, ...

With the first auctions for procuring new storage capacity in Italy expected in the second quarter of 2025, Aurora Energy Research has analyzed the internal rate of return for projects supported by the Energy Storage ...

In this piece, we interview executives from three developers looking to gain a foothold in the market: Aquila Clean Energy, Field Energy and Innovo Group. This is an extract of a feature which appeared in Vol.35 of PV ...

BESS technology has won the bulk of new resource contracts in the capacity market (CM) auction for delivery in 2027 in Italy. The auction took place last week (26/27 ...

Subscribe to Newsletter Energy-Storage.news meets the Long Duration Energy Storage Council Editor Andy Colthorpe speaks with Long Duration Energy Storage Council director of markets and technology Gabriel ...

In 2023, it started building 1.6GW of projects, mainly in Sardinia, after big capacity market wins in 2022. The country also leads Aurora Energy Research's ranking of the most ...

A BESS project Nidec ASI delivered in France earlier this year. Image: Nidec ASI news report. Nidec ASI, the Italy-based industrial solutions division of Japanese conglomerate ...

Australian peer-to-peer (P2P) energy trading pioneer Power Ledger has won a lucrative contract with Alperia SpA, one of Italy's largest renewable electricity utilities.

The MACSE auction will provide 15-year contracts for energy storage projects whereby they will be paid annual premiums to cover operating costs in exchange for making their capacity available on the Dispatching ...

is set to see rapid growth in investment in the Italian energy storage sector, led by battery energy storage systems (BESS), with the implementation of MACSE. The eagerly anticipated ...
