

Are battery energy storage systems needed in Italy?

Therefore, battery energy storage systems (BESS) are needed in Italy. The Italian market for BESS is growing rapidly and currently amounts to 2.3 GW but it almost exclusively consists of residential scale systems, associated with small scale solar plants, having a capacity of less than 20 kWh.

Does Italy need electricity storage?

As Italy's energy mix is increasingly composed of variable renewable energy sources, electricity storage will be needed to integrate power generated by renewables into the national grid and make it available when sun and wind energy are not accessible.

Which energy projects won 174mw of new contracts in Italy?

Meanwhile, Italian transmission system operator (TSO) Terna published the result of its capacity market recently, which saw 174MW of new contracts awarded to energy projects. Three BESS projects won a little over half of that capacity, at 89MW in total, while thermal generation units won 85MW of new capacity.

Why is energy storage important in Italy?

In addition, electricity storage is critical to avoid congestion in the power grids since most of the renewable production originates in Southern Italy but is consumed mostly in the north. Therefore, PNIEC also provides for the installation of new energy storage infrastructure with the aim of reaching 22.5 GW of installed storage capacity by 2030.

Which European markets have the most battery storage installations in 2023?

Top 3 European Markets for Battery Storage Installations in 2023 Germany, the U.K., and Italy emerged as the leading markets for battery storage installations in Europe during 2023. According to TrendForce statistics, Germany, the U.K., and Italy added capacities of 6.1GWh, 4.0GWh, and 3.9GWh, respectively, to their energy storage infrastructure.

How much will Italy's energy storage program cost in 2023?

In December 2023, the EU greenlit Italy's energy storage program, earmarking a hefty investment of EUR17.7 billion. This initiative is anticipated to facilitate the construction of over 9GW/71GWh of energy storage systems (ESS).

The 680MW Carrington Storage proposal is Statera Energy's largest consented BESS project to date. Image: Statera Energy. IPP Statera Energy and developer Carlton Power have entered an agreement allowing Statera Energy to build a 680MW battery energy storage system (BESS).

The firm agreed a deal with InfraRed Capital Partners to acquire Statera Energy earlier this month (6 November). Statera, a UK-based battery energy storage and flexible energy generation developer and operator, will ...

On Monday, Aquila Clean Energy EMEA started building a 50MW BESS, while fellow developer MW Storage announced two new energy storage projects totalling 40MW, covered by Energy-Storage.news. In August, another ...

Kyon Energy's managing director Florian Antwerpen shared his views for a recent Year in Review article along with fellow European developer/operators Aquila Clean Energy EMEA and Baywa r.e. Energy ...

BESS technology has won the bulk of new resource contracts in the capacity market (CM) auction for delivery in 2027 in Italy. The auction took place last week (26/27 ...

Italy will promote investments in utility scale electricity storage to reach at least 70 GWh, and worth over Euro 17 bn, in the next ten years. The new storage capacity will be ...

The CM and a new energy storage-only auction scheme called MACSE are set to form the bedrock of the business case for grid-scale storage in Italy, something that consultancy Timera Energy's director for power market services Steven Coppack said made it unique in Europe (Premium access). Specifically, the long-term contracted revenue of both ...

The residential energy storage market in Italy is already very strong, with the second-highest (321MWh) deployments in 2022 after Germany according to figures from trade body SolarPower Europe. This is partially ...

G& W Electric Co., a global supplier of electric power equipment since 1905, announced today it has acquired Tozzi Electrical Equipment, headquartered in Foggia, Italy. Tozzi is a manufacturer of electrical equipment, electrical panels and prefabricated mobile cabins for low and medium voltage.

Italian power and gas plant provider A2A has announced that it has acquired 18 PV power plants with a combined capacity of 17 MW in Italy. The company said that its unit, A2A Rinnovabili, bought ...

Energy-Storage.news reported on Volvo Cars" (now listed independently on the Stockholm Nasdaq) own foray into the vehicle-to-grid (V2G) space last week. bankruptcy, battery packs, electric vehicles, electric buses, ...

Axpo has already deployed a small battery storage project on home turf, this 2MW/2.17MWh unit at the Jona-Rapperswil power station. Image: Axpo Holding. Switzerland's largest energy firm Axpo has entered the battery ...

Groundbreaking ceremony at the Scatter Wash project, held towards the beginning of this year. Image: Strata Clean Energy . Copenhagen Infrastructure Partners (CIP) has acquired a 1GWh battery storage project in Arizona, US, from developer Strata Clean Energy.

The second edition of RENMAD Storage Italia (April 2-3, 2025) will bring together leading experts and industry leaders to discuss the evolving energy storage landscape, exploring both the opportunities and challenges ahead. Be part of ...

Enel's energy e-service unit Enel X and Eni's Be Charge operate Italy's main electric vehicle (EV) charging networks with around 20,000 charging points. Italy: The share of installers who offer storage systems increased to almost 90%.

The energy minister of Italy has signed a decree paving the way for an energy storage capacity auction to kick off in the first half of 2025. Skip to content. ... Minister of the environment and energy security Gilberto Pichetto ...

The capacity market (CM) and a new energy storage-only auction scheme called MACSE are expected to form the foundation of the business case for grid-scale storage in ...

Italian Energy Storage. In order to meet the European Union's energy and climate greenhouse gas emissions targets by 2030, EU countries need to establish a 10-year integrated national energy and climate plan to cover the period between 2021 and 2030. ... Energy used in aircraft, ships, motor vehicles, provided it is produced on board with its ...

Rome - July 4, 2023 - Matrix Renewables ("Matrix"), the TPG Rise-backed global renewable energy platform, today announced that it has started a partnership with Gravel A through a ...

Energy major Shell has acquired 100% of PV project developer Solar-Konzept Italia (SKI), taking its solar development pipeline in Italy to around 2GW in the process.

Policy changes in Italy are expected to have a significant impact on the European energy storage market, potentially leading to changes in local energy storage installations in 2024. Firstly, the decline in subsidies under the ...

The energy storage market in Italy has unique characteristics that mean more risk-averse investment funds will be able to enter, but upcoming auctions could be very competitive, driving down clearing prices, a director at consultancy Timera Energy said. New German BESS revenue indexes shed light on market and trading strategies ...

Energy-Storage.news" publisher Solar Media will host the 2nd Energy Storage Summit Central Eastern Europe on 24-25 September this year in Warsaw, Poland. This event will bring together the region's leading investors, ...

A trio of European BESS announcements, with Merus Power securing an order in Finland and IPPs Metlen

and Aquila Clean Energy EMEA winning government financial support for projects in Italy and Portugal respectively. The new items came in the same week that our publisher Solar Media put on the Energy Storage Summit EU 2025 in London (17-19 ...

Storing renewable energy for Italy""s biggest data ... FIAMM (a Hitachi group company) and Aruba have created a novel solution to power Italy""s largest data centre using only renewable energy, enabling the local ...

Partnering with such an experienced investor like CIP allows us to deliver projects that sets new standards for energy storage in Italy," Castiglioni said. Earlier this month, CIP ...

That project was acquired from another Italian company, Falck Renewables, with which Eni New Energy US formed a joint renewable energy and storage development platform in late 2019. The platform is called Novis ...

The firm has been an early mover in Italy's grid-scale energy storage market with over 1GW of BESS under construction after big capacity market wins in 2022. In concurrent news, developer Emeren has continued its ...

The development of large-scale battery projects aligns with CIP's growing focus on energy storage. With Italy's supportive regulatory environment, the partnership aims to ...

GRS, a part of Gransolar Group, has been contracted by Recurrent Energy to build a 171MW solar-plus-storage site in Victoria, Australia. Adapture Renewables secures US\$321 million debt facility ...

Italian utility Enel yesterday said it has acquired Liberty Lake, Wash.-based energy storage software firm Demand Energy. "By combining our global presence and expertise in systems integration with Demand Energy's software and established product offering, we will expand the development of renewables and storage both in the US and globally, delivering a ...

See all Energy-Storage.news coverage of the market in Italy here. Energy-Storage.news" publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 21-22 February 2024. This year it is moving to ...
