

What is the impact factor of Journal of energy storage?

The latest impact factor of journal of energy storage is 8.9 which was recently updated in June, 2024. The impact factor (IF) is a measure of the frequency with which the average article in a journal has been cited in a particular year. It is used to measure the importance or rank of a journal by calculating the times its articles are cited.

What is the Journal of Energy Storage?

The Journal of Energy Storage is a publication that focuses on all aspects of energy storage. This includes systems integration, electric grid integration, modelling and analysis, novel energy storage technologies, sizing and management strategies, business models for operation of storage systems, and more.

What is impact if 2023 of Journal of energy storage?

The Impact Factor (IF) 2023 of the Journal of Energy Storage is 9.64.

What is the acceptance rate of a journal of energy storage?

Acceptance rate is the ratio of the number of articles submitted to the number of articles published. Researchers can check the acceptance rate on the journal website. Alternatively, they can contact the editor of the journal. The impact factor of journal of energy storage is 8.9. The journal of energy storage is a reputed research journal.

What is the p-ISSN of Journal of energy storage?

Through this web page, researchers can check the impact factor, total citation, journal quartile, and journal aim & scope. Journal of Energy Storage is a Web of Science indexed journal that publishes research in the area: ENERGY & FUELS|Q1|29/170. The P-ISSN of this journal is 2352-152X.

What was the lowest impact factor of Journal of Energy Storage?

The highest and the lowest impact IF or impact score of this journal are 0.00 (2015) and 9.94 (2022), respectively, in the last 9 years. Journal of Energy Storage latest impact IF is 9.64. It's evaluated in the year 2023.
