At Chroma Energy Group, we provide state-of-the-art Battery Energy Storage and Microgrid solutions that enhance energy resilience, efficiency, and sustainability in Lebanon. Our tailored ...

Polyethylene glycol (PEG) as high heat latent PCM has great potential utilization in energy storage and batteries packs for thermal management, but it still has some drawbacks, such as high stiffness, easy leakage, and low thermal conductivity, which severely limit its application in BTMS [13, 14]. In order to improve the anti-leakage ...

First, climate measures in one world region lower the demand for fossil fuels and hence reduce their world market price. As a reaction to this price decline, other parts of the world can be expected to increase their consumption of fossil fuels, which offsets at least some of the achieved emission reductions (this mechanism is often referred to as the "energy market ...

GSL's storage systems offer uninterrupted power, protecting operations from costly downtime. Cost Savings: With lithium battery prices down 82% since 2013, energy storage is now an economically viable solution. Lebanese companies can cut energy costs by 15-25%, with 3 ...
