

Will TotalEnergies build a solar project in Libya?

TotalEnergies is anticipated to commission its 500 MW Sadada project in 2025, a monumental solar project in Libya. The project is being built in partnership with the General Electricity Company of Libya. The Renewable Energy Authority of Libya also has a role to play in its delivery.

How will the European Union support Libya's energy transition and climate resilience?

With a firm commitment to supporting Libya's energy transition and climate resilience efforts, the European Union has allocated funding to GIZ and UNDP to implement transformative projects to enhance Libya's capacity in renewable energy and energy efficiency and mitigate and adapt to climate change.

Will Libya build a 500 MW solar park?

General Electricity Company of Libya (Gecol), a state-owned utility, plans to build a 500 MW solar park in the Sadada region, 280 kilometers southeast of Tripoli, in partnership with French energy giant TotalEnergies.

How much solar power does Libya have?

According to the International Renewable Energy Agency, Libya only has 6 MW of installed PV capacity. In its strategic plan for renewables for the 2013-25 period, the Libyan government has set targets for 300 MW of PV by 2020 and 450 MW by 2025. It has also set targets to build 150 MW of concentrated solar power by 2020 and 800 MW by 2025.

What is Libya's energy supply based on?

Furthermore, in 2020, the combined revenues from oil and natural gas exports constituted approximately 73% of Libya's total export value. In 2020, the total energy supply (TES) primarily came from oil and gas, which contributed 53% and 43%, respectively, while renewables accounted for approximately 4%.

What is energy in Libya?

Energy in Libya primarily revolves around the production, consumption, import, and export of energy, with a significant focus on the petroleum industry, which serves as the backbone of the Libyan economy.
