

Major asset restructuring in the energy storage industry

Why do we focus on major asset restructurings?

We focus on major asset restructurings because we want to investigate whether target firms have an incentive to engage in classification shifting during the commitment period. However, the post-merger financial statement data of target firms are not publicly available and are difficult to obtain.

How has the IRA impacted the energy storage industry?

The energy storage industry has continued to progress over the course of 2024 and into 2025, buoyed in significant part by the federal income tax benefits in the form of tax credits enacted under the IRA. Energy storage was one of the major beneficiaries of the IRA's new rules on both the deployment and manufacturing sides.

How did energy storage grow in 2022 & 2023?

The US utility-scale storage sector saw tremendous growth over 2022 and 2023. The volume of energy storage installations in the United States in 2022 totaled 11,976 megawatt hours (MWh)--a figure surpassed in the first three quarters of 2023 when installations hit 13,518 MWh by cumulative volume.

How many energy storage financing and investment deals were completed in 2024?

Through the first three quarters of 2024, 83 energy storage financing and investment deals were reported completed for a total of \$17.6 billion invested. Of these transactions, 18 were M&A transactions, up from 11 transactions during the same period in 2023.

What technologies are used in energy storage systems?

TECHNOLOGY RISKS: While lithium-ion batteries remain the most widespread technology used in energy storage systems, these systems also use hydrogen, compressed air, and other battery technologies. The storage industry is also exploring new technologies capable of providing longer-duration storage to meet different market needs.

How are battery energy storage resources developed?

The most significant battery energy storage resource development has occurred in states that have adopted some form of incentive for development, including through utility procurements, the adoption of favorable regulations, or the engagement of demonstration projects.

In this report, Morgan Lewis lawyers outline some important developments in recent years and trends that will help shape the 2024 energy storage market. The US utility-scale ...

The Energy Storage Market is expected to reach USD 58.41 billion in 2025 and grow at a CAGR of 14.31% to reach USD 114.01 billion by 2030. GS Yuasa Corporation, Contemporary Amperex Technology Co. Limited, BYD Co. Ltd, ...

Major asset restructuring in the energy storage industry

2. Notice on Planning Major Asset Restructuring Matters 3. The counterparty's explanation on the non-existence of situation of Article 12 of the "Guidelines for the Supervision of Listed Companies No. 7 - Supervision of Abnormal Stock Transactions Related to Major Asset Restructuring of Listed Companies". This announcement is hereby made.

Power and utilities. M& A activity in power and utilities is likely to remain subdued over the remainder of 2023, with large utilities continuing to focus efforts on refurbishing existing assets to achieve superior returns on capital and on ...

Industry status: three major pain points behind high growth. 1. Cost pressure: lithium price fluctuations and supply chain bottlenecks Although the cost of lithium batteries has dropped by more than 80% in the past decade, the sharp fluctuations in the price of upstream lithium resources (such as the surge in the price of lithium carbonate to 600,000 yuan/ton in ...

Energy-intensive industries (EII) deserve special interest as their large carbon footprints make their transformation towards a carbon -neutral form of production challenging. This study explores how EU energy-intensive industries can transition to a climate -neutral economy while maintaining, and ideally improving, its global competitiveness.

is emphasized that the complementary advantages of the assets of both parties in the reorganization may involve the strategic adjustment of the enterprise.
