

First, we provide an overview of the energy industry, highlighting that many new energy technologies are smaller, modular, and increasingly rely on innovation in other fast-moving high-tech sectors. We then conduct two descriptive data analyses that document a sharp decline in both clean energy patenting and start-up activity from about 2010 ...

A brainchild of Lab Director Mike Witherell last spring, the intent was to reinforce Berkeley Lab's role as a serious national energy storage player, highlight the Lab's new Energy Storage Center which was established in the ...

Gathering in Avon, Colorado, the National Renewable Energy Laboratory's (NREL's) Innovation and Entrepreneurship Center (IEC) held the NREL Innovation Showcase on Oct. 15, 2024, to bring together cleantech and climate-tech entrepreneurs, industry experts, investors, and NREL researchers around the theme "Demand Matters."

Informa Markets in India has declared that the Renewable Energy India Expo is the premier festival of Renewable Energy. On behalf of the entire Solis India team, I would like to express our heartfelt gratitude to all the visitors, partners, ...

China's Ministry of Industry and Information Technology has approved the establishment of the National New Energy Storage Innovation Center in Guangzhou, China's sole national manufacturing innovation centre in the field of new energy storage, by the country's second largest grid company, China Southern Power Grid Corporation (CSG).The approval is ...

National Capabilities to Support Decision Making around Energy Storage . View the National Capabilities to Support Decision Making around ... New Energy Risk; Eric Dufek, Idaho National Laboratory; Craig Horne, ...

The consortium is a national-level new energy storage innovation platform jointly led by State Grid Corporation of China and China Southern Power Grid Co., Ltd. under the guidance of the State-owned Assets Supervision and ...

The conference will focus on energy storage materials, graphene, new two-dimensional materials and carbon nanomaterials, and invite well-known scholars and industrialists from China, the United States, Europe, South ...

As college students are the new force of mass entrepreneurship and innovation, it is of great significance to

support college students' innovation and entrepreneurship. In recent years, increasingly more Chinese college students have devoted themselves to the practice of innovation and entrepreneurship, but they are also faced with problems such as financing ...

Mr. Sunil Jain is the new chairman of Skill Council for Green Jobs (SCGJ) since 1 st April 2024. He is the Founder Partner of Sundev Renewables LLP and has over three decades of experience across industries including renewable energy, automotive, ...

Guided by the initiative of "Reaching carbon peak in 2030 and carbon neutrality in 2060" proposed by President Xi Jinping in a key period of global energy transformations, Energy Storage Sci-Tech Innovation Team is targeted at addressing major scientific issues in energy storage, major research tasks and large-scale sci-tech infrastructure, as well as making a ...

Supported by National Base for International Science & Technology Cooperation, National Local Joint Engineering Laboratory for Key Materials of New Energy Storage Battery and Hunan Province Key Laboratory of Electrochemical Energy Storage & Conversion
