

When is energy storage International Conference & Expo 2025?

The 13th Energy Storage International Conference and Expo is scheduled for April 10-12, 2025, and will be held at Beijing New International Exhibition Center Phase II.

What is solar PV & energy storage World Expo?

The Solar PV & Energy Storage World Expo is a prominent business tradeshow dedicated to advancing the renewable energy transition. It has facilitated connections between overseas buyers from over 100 countries and enterprises that align with their business needs.

How many exhibition halls are there at the Energy Expo?

The expo will have 7 exhibition halls, inviting participation from power companies, power generation groups, grid companies, transmission and distribution operators, grid system operators and integrators, new energy manufacturers and investment institutions.

What is a power industry expo?

The expo will span seven exhibition halls and welcome participation from power companies, generation groups, grid operators, transmission and distribution companies, system integrators, new energy manufacturers, and investment institutions.

Why should you attend the energy storage Conference?

This influential gathering will feature high-level industry reports and high-end dialogues, creating a major platform for academic exchange and collaboration within the energy storage sector. The event will also place a stronger emphasis on international outreach and promotion.

Why is energy storage important?

Energy storage is an important component and crucial technique in renewable energy system. It is the basis of realizing the wide application of distributed energy and micro grid, realizing energy interconnection and sharing, and realizing network integration.
