Sale of Public Assets. The most common form of privatization is the sale of publicly owned enterprises, also called state-owned enterprises or SOEs, into private ownership. In developed nations this form of privatization has involved the widespread sell-off of SOEs and utilities that were established or nationalized in the two decades following World War II.

Although some traditional state-owned and -run enterprises have performed well, and indeed were often formed by nationalizing private-sector companies that were either too small to exploit economies of scale or too large to prevent monopolistic abuse, there was an increasing awareness during the 1980s that a lengthy period of state ownership ...
