Rongyu Group is a manufacturing company that specializes in the production of a wide range of electronic components. The products offered by the company are energy meters, molded case circuit breakers (MCCB), permanent magnetic AC contactors, and high-voltage vacuum breakers. The company went under reconstruction in 2015 and in 2016, the management

Since the successful commercialization of lithium-ion batteries (LIBs) in early 1991, they have penetrated many aspects of current modern life, including portable electronic devices, electrical vehicles, and energy storage grids [1], [2], [3]. However, due to ever-increasing energy storage demands, the broadly favored LIBs are confronted with the bottleneck of practical ...
