

What is Tuya smart?

New York,United States - Tuya Smart,a IoT development platform service provider,announced a partnership with Yiyen Electric Technology Co.,Ltd (Yiyen) to enable customers to provide their users with an all-in-one smart energy management system that integrates energy storage,charging and energy usage capabilities.

Is Tuya the future of Yiyen's energy storage business?

"Since 2015, Yiyen has started to build out sustainable energy solutions across the global IoT industry. Tuya's technologies will provide more possibilities for Yiyen's energy storage business.

How does Tuya's AI-integrated energy management system work?

On the cloud level,Tuya's AI-integrated energy management system generates real-time energy consumption mapsbased on data from smart devices and specific usage scenarios. This enables the system to develop optimal energy-saving and emissions-reduction strategies.

How does Tuya's smart lighting system work?

Tuya's smart lighting system dynamically adapts to family members' daily routines. For instance,when children are doing homework,the lighting shifts to cool white tones to enhance focus,while during TV time for the elderly,it transitions to warm yellow hues to reduce eye strain.

How is Tuya transforming the energy sector?

Leveraging years of dedicated research and development,Tuya is seamlessly integrating technological advancements with social value creation,pushing the boundaries of innovation in the energy sector. Under the dual pressures of the global energy crisis and climate change,humanity is facing an unprecedented challenge.

What is Tuya & how does it work?

By integrating global mainstream AI models--including ChatGPT,Tongyi Qianwen,DeepSeek,Gemini,and Amazon Nova--Tuya empowers developers to create AI-driven smart devices and scenario-based applications that are more competitive in the market.

The container energy storage system helps to use and manage energy more effectively, reduce electricity bills, and can be applied in various scenarios such as peak valley arbitrage for power users, frequency regulation and peak ...
