

How much will Slovenia spend on solar energy projects?

Data Protection Policy Slovenia has set aside EUR16 million (\$16.7 million) to support solar energy communities, requiring projects to include at least 100 kW of PV capacity, with or without storage. The program will run until 2027.

How much power does a photovoltaic system need in Slovenia?

The government and Slovenia's EU Cohesion Policy Program are co-financing the initiative, the ministry said in a statement. "The total nominal power of the installed photovoltaic modules must be at least 100 kW, with or without battery energy storage systems," the authorities said.

What is the Slovenian energy policy?

The purpose of the measure is to accelerate the deployment of investments in renewable energy production and energy storage, with the aim to foster the transition to a net-zero economy. The Commission found that the Slovenian scheme is in line with the conditions set out in the Temporary Crisis and Transition Framework.

Do solar power plants need a building permit in Slovenia?

Solar power plants with the maximum power of up to 1MW are, according to the Decree, considered small power plants and do not require a building permit to be installed. The Decree simplifies investing in renewables and is a welcome change as procedures for obtaining building permits in Slovenia can be time-consuming. 3.

Does Slovenia have gas storage facilities?

Slovenia does not have gas storage facilities, with companies dependent on infrastructure in Austria and Croatia. Slovenia has expressed interest in securing U.S. LNG sources via terminals in Krk, Croatia, or Rovigo, Italy, to diversify its supply away from Russia.

How much energy does Slovenia use?

Almost half of Slovenia's total energy consumption consists of imported petroleum purchased on global markets. Russia provides most of Slovenia's natural gas, which accounts for 12 percent of overall energy consumption. Slovenia uses approximately 0.8 billion cubic meters of gas annually.

Electricity storage is not specifically considered within the Slovenian legislative framework. No subsidies are envisaged by the current legal framework, but are mentioned ...
