

What is SMA's commercial energy solution?

SMA's Commercial Energy Solution is a solar and storage solution for businesses. It helps reduce energy costs and promotes sustainability. Discover SMA's flexible solutions for PV and storage power plants, designed for a climate-friendly future.

Who is SMA Solar Technology AG?

SMA Solar Technology AG is a company that specializes in innovative solutions for generating, storing, and using renewable energies. They enable people and companies around the world to increase the independence of their energy supply and have been advancing the energy transition for over 40 years.

What products does SMA offer?

SMA's portfolio contains a wide range of efficient PV inverters, holistic system solutions for PV systems of all power classes, intelligent energy management systems and battery-storage solutions as well as complete solutions for PV diesel hybrid applications. Learn more

What does SMA offer for e-vehicles?

SMA offers modern charging solutions for e-vehicles. Our innovative solutions for solar and storage applications, intelligent energy management systems and modern charging solutions for e-vehicles enable people and companies around the world to achieve greater energy independence. Together with our partners and customers, we are shaping the energy transition.

What are SMA Solar batteries?

Powerful SMA solar batteries for homes and businesses. System technology components in the field - flexible and simple. SMA charging solutions for particularly intelligent, sustainable and cost-effective recharging of electric vehicles.
