

What is Rongke Power?

Rongke Power surpasses 2 GWh of deployed vanadium flow battery energy storage systems globally, setting the largest capacity milestone in the VFB sector and advancing sustainable energy solutions worldwide.

How big is Rongke Power?

Rongke Power, in a press release on December 9, announced that it has now surpassed 2 GWh of deployed utility-scale VFB energy storage systems worldwide. The company states that this feat represents the largest installation capacity in the vanadium flow battery sector to date.

Which energy storage facility is launching a 'vanadium flow' battery in China?

UniEnergy Technologies and Rongke Power plan to deploy one of the biggest energy storage facilities, an 800 MWh flow battery, in the Dalian peninsula in northern China. When commissioned, the Vanadium Flow battery will provide peak-shaving and enhance grid stabilization.

Where are Rongke Power Vfb batteries built?

The batteries will be built at Rongke Power's new GigaFactory to be opened in the fall of 2016, with a phase 1 capacity of 300 MW of VFB electrode stacks, a phase 2 capacity of 1GW, and a phase 3 capacity of 3GW. Both Rongke Power and UET's deployments of VFB systems will be supported by production from Rongke Power's GigaFactory.

What is the 'Rongke GigaFactory'?

The 'Rongke GigaFactory' opened in early 2017 with a phase 1 capacity of 300MW/year. Phase 2 and 3 have goals of 1 and 3 GW/year of production. The battery is part of a push from the "China National Development and Reform Commission" to develop and deploy energy storage technology.

Is UET investing in Rongke Power?

Late last year UET secured \$25 million in venture capital funding a capital round led by Orix of Japan and Bolong Holding, which is also an investor in Rongke Power. UniEnergy Technologies Strategic Partner to Deliver World's Largest Battery PR Newswire
