

What is Longtan energy storage system?

State-run Taiwan Power Company inaugurates today (Jan. 22) the Longtan Energy Storage System, the largest such facility in Taiwan up to now, built by TECO Electric & Machinery, on a turnkey basis.

What is Taipower's energy storage system at Longtan Taoyuan?

Taipower's energy storage system at Longtan, Taoyuan is a key project for the Taiwan government. In the future, when a large amount of offshore wind power is connected to the Taipower system, energy storage systems will play a key role in stabilizing the power grid. Safety is a core element of Fluence's business.

Who supplied the energy storage system at Taoyuan Longtan?

Located at the Taoyuan Longtan ultra-high voltage substation, the energy storage system was supplied by Fluence in partnership with TECO Electric & Machinery Co. (TECO).

What is energy storage equipment in Taiwan?

Taiwan revised its "Renewable Energy Development Act" on May 1, 2019, and Article 3, paragraph 1, Subparagraph 14 of the Act clearly defines energy storage equipment as a means of storage for power which also stabilizes the power system, including the energy storage components, the power conversion, and power management system.

What is the current situation of the energy storage industry in Taiwan?

The current situation of the energy storage industry in Taiwan Taiwan has a demand for energy storage systems, electric vehicles, and industrial development. Taiwan's foundation in the energy storage industry is in the field of battery technology, but it is difficult to compete with international manufacturers in terms of costs.

What is Taiwan's energy storage policy?

Taiwan's power grid system is an independent power grid. To cope with the impact of renewable energy integration in the future, there is a demand for energy storage systems. The government's policies on energy storage can be summarized as follows: (1) Solving the problem of intermittent renewable energy grid connection.
