

How many kilowatt-hours of electricity have Wanda plazas saved?

Over the past five years,Wanda Plazas across China have saved 150 million kilowatt-hoursof electricity,equivalent to 150,000 metric tons of carbon dioxide emissions. This is a major achievement of Wanda Group's second "Five-Year Plan" for green building and energy conservation.

What is Wanda Plaza?

Over 30 years,Wanda has gone through various changes,but its current flagship development scheme is the Wanda Plaza,an independent commercial zone which combines offices,shops and accommodation. There are more than 90 of these sites in existence,and CEO Wang Jianlin has also vowed to take on Disney's theme parks in the mainland of China.

Is Wanda Plaza a good place to hang out on a rainy day?

A great place to hang out on a rainy day. Wanda Plaza is huge with Walmart! Plenty of restaurants and shops. Well it looks nice,however it only opens at 10.00 when the mall opens but there is a lot that really sucks,and though a Starbucks in China,too much adapting local goes too far away from Starbuck standard quality.

Does Wanda Group have a 'five-year plan'?

[Photo provided to chinadaily.com.cn]Chinese conglomerate Wanda Group released its third "Five-Year Plan" (2021-25)in green building and energy conservation,setting an example of environmental protection to fulfill its corporate social responsibility.

Does Wanda have a green plan?

The plan made Wanda the first large private enterprise in China to fully implement green building and energy savings. In the second "Five-Year Plan" (2016-20), Wanda further lifted the requirements, ordering newly-established projects to acquire both green design certificates and green operation certificates.
