

Xin energy storage project tender announcement

Where is Xinhua power generation launching a new solar energy project?

July 18,2022 Xinjiang: The Xinhua Power Generation Company held a groundbreaking ceremony,together with Bortala Mongolian Autonomous Prefecture,celebrating the start of the firm's 1 GW new solar energy project at Bozhou,located on the north side of G219 National Road west of Bole City at Aheqi Farm,Jinghe County in Xinjiang Province,China.

What is the largest energy storage procurement in China's history?

The tender marks the largest energy storage procurement in China's history. In what is described as the largest energy storage procurement in China's history,Power Construction Corporation of China(PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids were opened on December 4.

How much does energy storage cost in China?

In what is described as the largest energy storage procurement in China's history,Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids were opened on December 4. The tender attracted 76 bidders,with quoted prices ranging from \$60.5/kWh to \$82/kWh,averaging \$66.3/kWh.

When will a 100MW solar & molten salt energy storage system be completed?

A 100MW thermal solar and molten salt energy storage system in Xinjiang,China,is set to be completed and grid-connected by the end of 2024.

What is powerchina's storage initiative?

This storage initiative is part of PowerChina's broader equipment procurement planannounced on November 13,which also includes 51 GW of solar modules,51 GW of inverters,25 GW of wind turbines,and 15,240 prefabricated 35kV substations.

What happens if a supplier is shortlisted for energy storage system equipment?

In the future,as specific projects are implemented and procurement needs clarified,the shortlisted suppliers will be directly invited to engage in secondary competition,either through negotiated procurement or competitive bidding,to determine the final supplier for the required energy storage system equipment.
