

Who is cubenergy?

Cubenergy is an innovative manufacturer of C&I and utility-scale stationary Battery Energy Storage System(BESS). By integrating BESS with grid,PV,wind turbine,diesel generator,and other sources of energy with self-developed Battery System,BMS and EMS,forming a series of standardized,all-in-one,integrally transportable and EPC-free ESS.

Why should you choose cubenergy ESS?

By integrating BESS with grid, PV, wind turbine, diesel generator, and other sources of energy with self-developed Battery System, BMS and EMS, forming a series of standardized, all-in-one, integrally transportable and EPC-free ESS. Cubenergy follows the highest standards in manufacturing its products.

How does cubenergy ensure Bess safety?

Cubenergy has adopted a vertically integrated approach to ensure BESS safety. This encompasses the entire project cycle: product design,manufacturing,testing,quality control,delivery,operation,and maintenance.

Why should you choose cubenergy?

Cubenergy follows the highest standards in manufacturing its products. The ESS products are certified in line with UL9540,UL9540A,NFPA855 etc. Cubenergy bankability reports facilitate developers to have the ESS projects well funded and insured. The future of energy is distributed, clean, and consumer-centric.

As a global supplier of distributed energy storage and smart grid system solutions and core equipment, Yunneng Cube brought its latest energy storage solutions and a variety of ...

Yunneng Wind Power Co., Ltd. (Yunneng), the company responsible for the construction and operation of the 640 MW Yunlin Offshore Wind Farm project (Yunlin OWF) project in Taiwan, has achieved another major milestone by successfully completing the installation of all 80 foundations, which includes both the monopiles and transition pieces.

Major step for Taiwan's offshore wind farm and renewable energy sectors; Skyborn Renewables (Skyborn) and its partners in Yunneng Wind Power Co., Ltd. (Yunneng) are pleased to announce a major milestone: The Yunlin Offshore Wind Farm (OWF) is now fully operational and producing clean energy at its design capacity of 640 MW.
